The Total Enterprise Security Solution for Healthcare

- Scalable, Enterprise Class
- Universal Identity Management Solution
- Integrated Video & Security
- Multiphase Threat-Level Management
- Visitor Management Solution
- Super-fast Processing
- Open Architecture Integration
- Remote System Management with Web Client
- Synergistic Panels & Software
- Global Lockdown
- Robust multi-database partitioning
Continental CA4K® Enterprise Access Control & Security Solution for Healthcare

CAPABILITIES FOR TODAY & TOMORROW WITH LOW TOTAL COST OF OWNERSHIP.

The health of your facility’s security and budgets are a key factor to delivering quality patient service & staff satisfaction. With the rising threat of violence, security demands are up while budgets are often outpaced. Couple that with strict HIPAA/CMS/COM, HIPAA regulations and it’s more important than ever to choose a proven integrated healthcare security solution that provides a low total cost of ownership. That choice is a Continental Access System, a 45 year pioneer in access control & security with long-lived systems in leading US healthcare facilities for decades. Team CA4K® Enterprise Access Control & Security Management Software with Continental’s own field-upgradeable hardware for a high-performance system, incorporating legacy and new structures and systems. Integrate all identification systems, from smart cards, proximity, PINs and biometrics; ideal in retrofits, it simultaneously supports multiple credential and reader formats. Fully scalable so whether or not you use its full onboard storage for up to 1 million IDs /panel, 32,000 doors or 30,000 access groups per location, you still won’t have to change/upgrade software. This translates to lower total cost of ownership and affords facility administrators comprehensive, flexible area-specific access control.

OPEN ARCHITECTURE AND INTEGRATION WITH THIRD-PARTY SYSTEMS

Video and intrusion/fire systems integrate with advanced, partitionable databases spanning visitor management, parking, patient records, pharmacy, food services, human resources and finance systems. CA4K is Microsoft SQL Server database based, well-priced with no annual license fees for lowest TOC. Import/export utilities provide smooth data exchange of badge and personnel or patient data, such as import-export of photos for an open exchange between ERP (human resources and IT management) time and attendance data or report generation. Its export of photos for an open exchange between ERP (human resources data exchange of badge and personnel or patient data, such as import-export of photos for an open exchange between ERP (human resources and IT management) time and attendance data or report generation. This translates to lower total cost of ownership and affords facility administrators comprehensive, flexible area-specific access control.

Robust, Scalable, CA4K Enterprise Access Control & Security Platform for minimal TOC

- Control from 1 to 32,000 doors; up to 1,000,000 cardholders/panels.
- Event transactions storage limited only to hard drive size
- 30,000 access groups and over 32,000 readers/ location, with no software to upgrade
- 5 Holiday calendars with 100 Holidays each
- Over 12,000 readers with 112,000 relay outputs per location
- Over 124,000 supervised alarm inputs per location

Universal Identity Management Solution

- ID credential, smart card, and biometrics management system
- Onboard storage for up to 1 million cards or 500,000 full data PIVs
- LDAP compliant single sign-ons
- Supports Active Directory at cardholder level with popular third-party utilities; Javelin Software - AD Reporter®; Netwrix Auditor®; Management Engine - ADManager Plus®

Multiphase threat level management and/or Lockdown by group, area or systemwide

Visitor Management solution & custom photo badging utility

Open Architecture Integration

- Microsoft SQL Server database based. Competitively priced - no annual software licensing fees for low total cost of ownership
- InterAccess - Open API support allowing third parties to seamlessly integrate Continental software and harness the power and speed of hardware
- Supports a wide range of technologies and databases including partitioning, as well as importing of Microsoft ‘Active Directory’ and Oracle” exports
- Advanced Import / Export Utilities. Open data exchange of badge and personnel, ERP & other databases (e.g. Oracle)

Seamless Universal Video, Security and ID Integration solution from single station

- Integration with most security systems and offers a central reporting option
- Email and SMS notification
- Integrates with third-party manufacturers of video cameras, NVRs/DVRs, biometric devices and readers, intrusion, fire, etc
- Remote System Management via web client
- Seamless integration with your preference or existing video - Video Insight®, Exacq®, Milestone®, Pelco® DS & DX, Salient®, Hitron®, Integral® & Avigilon®

Continental Hardware

- Flexible range of super-fast hardware from single-door POE solution, to wireless PIN/Prox door locks, to expandable conventional controllers from 2 to 16 doors
- Designed and built by Continental’s ISO9001; 2000 Certified manufacturing facility, onboard power supplies, relay- and lightning/ESL protection, etc

• Built-in labor savings, upgrade migration, low maintenance costs
• Long product line continuity even in legacy systems; field upgradeable
• Industry’s longest 3-year warranty.

Super fast speeds even at peak hours

- Fastest processing performance available on the market, (up to 921.6 Kbps communications) i.e., door opens in a fraction of a second, rapid reports and full data downloads in minutes
- Global inputs/outputs and activity links for systemwide and individual device control

Elevator Control – Hardware & Software Integration control, Including OTIS Elevator support

- InterAccess - Open API support allowing third parties to seamlessly integrate Continental software and harness the power and speed of hardware
- Supports a wide range of technologies and databases including partitioning, as well as importing of Microsoft ‘Active Directory’ and Oracle” exports
- Advanced Import / Export Utilities. Open data exchange of badge and personnel, ERP & other databases (e.g. Oracle)
- Seamless Universal Video, Security and ID Integration solution from single station
