Online Training

Continental Access -Online Training

In addition to on-site training, Continental Access has launched a fully online, self-paced E-Learning site for certification training for your Technicians. This self-paced training will put the Technician through the paces of installing the latest CA4K Access Control Software, programming a basic system and configuring the uniVerse, Super Two and Accelaterm control panels to properly work in a real world environment.

The training can be completed in one sitting or over a course of weeks as the dealer and technician can dedicate time. Average training time of all modules will be approximately 4 to 6 hours.

How to Enroll

Place an order through your normal channel using part number *CA-TRAIN-ONLINE* at the dealer price of \$99 per individual. On the P.O., please include the trainees contact information including full name, email address and phone number. Each trainee must provide a unique email address. Please email the P.O. to your Continental Sales contact. Upon the receipt of the P.O., we will send each individual registered, a personal link to their training login.

Upon final successful completion of all courses, the trainee will receive a Certification of Completion on the Continental Access Control System allowing them to install, support or to receive Continental Technical Support assistance.

The Technician will need a computer with ability to connect to the internet to log in to the training portal and the computer should meet the minimum requirements to run CA4K. Training equipment is recommended (purchased separately) which will include a Super Two control panel, 2 readers and CA4K 5 user software. One training kit per trainee can be purchased for \$650.
